

# bookmarks

luminoctis.net

size            small 38 mm × 120 mm  
                  big 54 mm × 162 mm

bleed            3 mm

print            print on DIN-A4 sheet  
                  (e.g. on photo paper with an ink-jet)

scale            1:1 or 100% size

instructions    1. print bookmark of your choice  
                  2. crop and adjust as you wish  
                  e.g. cut the corners in a round shape

extras            Thrilled friends of arts and crafts could add all sorts of upgrades on their bookmark like stitching, fine lace, glitter or rhinestones.

caution            Better don't use too thick or stiff materials since they could imprint their shape into the book's pages. Be careful with glitter also, if you don't want your entire book or room to look like a fairy hideout!

Have fun!
